WE DO WHAT NOW?

A few games with weird and interesting game mechanics! Have you tried either of these?

Cozy Sticker Ville - Build your own village in this sticker filled game! What are you going to create? Explore and discover as you help residents pursue personal stories, go fishing, explore the mine, and uncover hidden mysteries.

Giants Moving Tiny Furniture - Your team's goal is to move miniature furniture to its new home in as few trips as you can, as quickly as possible. The catch is, you can only use your pinkies! You have to stack the goods, plan your trip, and work together to make sure you don't drop anything. The team that completes the most successful moving jobs wins.
